who we are

We are a family manufacturing company that has been operating on the Czech market since 1995. The main product of our production program is traditional potato crisps and salty snacks, but we also offer baker's sticks and nuts.

The whole production process takes place in our company, starting with the purchase of raw materials to the distribution to our business partners throughout the Czech Republic and from 2015 also in Slovakia.

We have been producing traditional fried potato crisps for more than 20 years. During this time, there has been a number of innovations, but it is crucial for us, despite the modernization of production, to keep the final product the same and to maintain its high and constant quality. We produce traditional potatoes crisps and we will continue to produce them.

CLASSIC THAT TASTES

our philosophy

Although potatoes crisps are made by unique modern technology, the production process remains dependent on a large proportion of manual work. When introducing innovations, it is most important for us to remember the traditional recipe and the proven technological procedures. Just so the product can keep its quality and differentiate itself from competing products.

Traditional fried potato crisps of adequate quality have a typical aroma and golden color. They are brittle and crunchy on the bite. The best ones are always fresh.

That is why we do not make our products in stock, but according to the actual orders of our business partners. Thanks to this, we can guarantee that we always sell fresh goods.

**NEW
PRODUCT**

Cyril's potato crisps
horseradish 100 g

Carefully selected varieties of potatoes and 100% Czech rapeseed oil which gives the potatoes the right taste and color. This is the basis of our crunchy crisps. We make them with a large proportion of handwork, fry them until they are golden and make sure that they are still authentic and good.

In addition to the classic flavors of salt, garlic and mustard, you can now taste two newbies - vinegar or horseradish crisps.

cooperation

We completed a new production hall and increased our production capacity in November 2018 and now we are looking for new cooperation partners.

This is not a classic franchise license - you will not pay any entry fee. It is rather an exclusive representation on foreign markets.

It is necessary to observe the prescribed conditions of cooperation and corporate culture of the parent company, as stated in the contract.

On the other hand, you can buy the goods at exclusive prices and distribute it to wholesalers, large and small customers, and build your own sales network in your country.

sales promotion

Are you looking for the right place for our products? We will be happy to provide you with our advertising display, thanks to which customers will always have them before their very eyes. If you like handmade products just like us, you will appreciate our handmade wicker baskets as well as ceramic bowls and mugs in which you can serve potato crisps and grissini.
